

Project Objectives

Date	4 October 2022
Team Id	PNT2022TMID21248
Project Name	Smart Lender-Applicant Credibility Prediction for Loan Approval

Project Objectives

- Knowledge of Machine Learning Algorithms.
- Knowledge of Python Language with Machine Learning.
- the problem to classify if it is aregression or a classification kind of problem.
- pre-process/clean the datausing different data pre-processing techniques.
- Applying different algorithms according to the dataset andbased on visualization.
- Real-Time Analysis of Project.
- Building ease of User Interface (UI).
- Navigation of ideas towards other projects(creativity).
- Knowledge of building ML models.
- How to build web applications using the Flask framework..
- Deployment of ML Model with Cloud and integration with flask application.
